

24 June, 2010

I would highly recommend anyone who has existing, or who is looking into getting insurance(s) to contact Red Risk. The knowledge of the team, their professional friendly approach has been outstanding. My direct advisor, Abby, has been a joy to deal with.

When I became self-employed there was a world of information to understand, dos and don'ts, and advice to take on board. Part of the process was to understand the various options for insurances I might need and Abby made this clear and simple!

Abby takes pride in her role, is approachable, conscientious and very professional in her approach. Abby has given me utmost confidence that not only am I covered, but that I am not over-covered. My insurances are custom fit to my lifestyle and what I need. They are reviewed on a regular basis to ensure this is always the case. It's always a pleasure dealing with Abby and the team at Red Risk.
