RE: Testimonial For Abby Burns

Dear Ms. Burns,

I am writing to acknowledge the exceptional service I received from you regarding my application for a new life insurance policy.

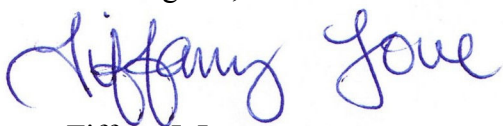

As soon as we talked things over on our first meeting, I could tell that I would not need to worry about follow-through or whether I might be missing a better "deal" somewhere else.

Your questions about my individual situation and your clear and concise presentation and explanations were superb. You handled my queries with great patience and you were thorough and friendly to work with. Whilst we waited for communications from either underwriting and/or the facility with my medical records, you kept in contact with me even if we were still waiting, and always answered my queries within a very timely manner. I was always able to contact you if I had questions and that is a very important service to me.

Deans & Associates recommended me to you and I am very pleased that I chose to take their recommendation. I would certainly recommend you to my family and friends.

Hopefully this is the beginning of a very long business relationship and friendship.

Kind regards,

Tiffany J. Love
